

Dear Judy,

The pleasure was all mine. The thoroughness of the report and the clarity of the explanation were superb ... and just what I needed to be able to make the kind of decision that was needed in a very short period of time. We couldn't have done it without the Hughes!

I included a statement in my offer letter "pending the results to the Radon Tests and the Termite Inspection." I will wait until I have the hard copies to remove the caveat.

Thanks again for all you did to make this come together in such a short time and with such a high degree of confidence. Your professionalism and expertise are amazing and hard to find these days.

I am glad my dear sister found you for me. I am grateful that your web site was so complete and our very first phone conversation so factual, straight forward, and helpful.

Altogether, a very satisfying piece of business.

Sincerely,
Pamela Bobbs
